 PORTFOLIO

STATUS: Currently Pursuing B.Tech, MSIT

CGPA: 8.61 / 10

►►► SUMMARY

Passionate Full Stack Developer with hands-on experience building robust, real-time web applications. Proficient in the Node.js ecosystem with a strong grasp of backend engineering, database design, and interactive frontend development. Proven ability to ship production-ready projects independently, including a real-time file sharing platform and a URL shortening service — both live and deployed.

►►► TECHNICAL SKILLS

Languages & Web	HTML, CSS, JavaScript, Node.js, Express.js
Database & ORM	PostgreSQL, Prisma
Tools & Libraries	JWT Authentication, Multer, Cloudinary, Socket.io
Developer Tools	Git, GitHub, Railway, Render

►►► PROJECTS

ThrowIt – Real-Time File Sharing App | Node.js, Express.js, Socket.io, PostgreSQL, Prisma, Multer, Cloudinary [Live](#) [GitHub](#)

- Built a real-time file sharing web app where users join private rooms using a unique secret key
- Supports sharing of files, images, videos, audio, and documents across all users in the same room
- Implemented real-time chat feature using Socket.io for seamless in-room communication
- Used PostgreSQL with Prisma ORM for data management and Multer + Cloudinary for file uploads

URL Shortener | Node.js, Express.js, PostgreSQL, Prisma, JWT Authentication [Live](#) [GitHub](#)

- Developed a URL shortening service that generates a unique short ID for any given long URL
- Visiting the short ID automatically redirects the user to the original destination URL
- Built with Node.js and Express.js backend, deployed on Railway with PostgreSQL database
- Implemented JWT-based authentication to secure user sessions and protect shortened URL endpoints

►►► EDUCATION

Maharaja Surajmal Institute of Technology

New Delhi, India

Currently Pursuing Bachelor of Technology

2023 – Present

- CGPA: 8.61

►►► ACHIEVEMENTS

- Participated in 3 Hackathons, gaining experience in rapid prototyping and collaborative development under time constraints
